

Pacific Islands Sea Level Rise Adaptation Science Dialogues Meeting #3: Researcher Focus Group Discussion - Improving Cooperation to Address Science Information Needs

Hosted by the Pacific Islands Climate Adaptation Science Center (PI-CASC)
and Hawai'i Sea Grant

Monday, September 27, 2021, 2:00pm - 4:00pm (Hawaii)

Meeting Link: You should have received a Zoom meeting link after registering in advance.

Meeting attendees will be provided with summaries from Sea Level Rise Adaptation Science Dialogues Meetings #1 and #2 including key takeaways from discussions, summaries of recent and planned research projects, and a draft community of practice mission and objectives for discussion.

Goals of Meeting #3:

Building on information and outcomes from meetings #1 and #2, attendees will discuss and prioritize:

- Key takeaways and priorities from meetings #1 and #2 including thematic and regional needs for sea level rise adaptation science.
- Next steps for building a sustained and expanded community of practice

Meeting Agenda:

- 2:00 Welcome, meeting #3 agenda and goals (Mari-Vaughn Johnson, Darren Lerner)
- 2:05 Key takeaways from dialogues #1 and #2 and priorities looking ahead
 - Overview, refresher, key takeaways from meeting #1 and #2 (Brad Romine)
 - Group Padlet activity and discussion: priorities for regional SLR research and community of practice efforts (facilitator: Darcy Yogi)
- 2:45 Break

- 2:50 Sustaining and growing our community of practice for sea level rise adaptation science in the Pacific Islands
 - Examples and models for Communities of Practice that we might look to (Heather Kerkering)
 - Group Jamboard activity and discussion: mission, objectives, key questions and next steps (facilitator: Brad Romine)
- 3:50 Closing, summary of next steps and action items (Mari-Vaughn, Darren, Heather, Brad)
